The next draft of the aluminum report will be provided for you Monday afternoon. They are working to incorporate a lot of information that ITA provided.

Secretary Chao's staff today put me in touch with staff at the National Highway Traffic Safety Administration who should be able to assist in drafting language for the EO. I have asked them to contact me and will follow up again on Monday if I don't hear from them tonight or over the weekend. In any event, (b)(5)
