

Since our founding in 2017, Democracy Forward Foundation (“Democracy Forward”) has represented more than 100 organizations, institutions, and municipalities in legal matters to protect democracy and propel social progress. The broad and diverse range of clients we have had the honor of representing and working alongside reflect the very fabric of our country—voters, workers, veterans, immigrants, educators, medical professionals, scientists, researchers, the press, cities, counties, academics, students, conservationists, community organizations, small businesses, advocates, activists, public health experts, consumers, unions, and many more.

The pages that follow provide just a glimpse of some of our more than 100 prior and current clients and partners with which we have worked to fight for the promise of democracy on behalf of all Americans.

We believe that democracy requires all of us and that together we can ensure that America’s best days are still ahead.
