The Florida Public Records Statute requires any state, county, district, or municipal agency or department to provide access to state, county, and municipal records. Fla. Stat. § 119.01(1). Only limited exceptions are provided for information that would harm an interest protected by a specific exemption or where disclosure is prohibited by law. *Id.* § 119.071. In the event that the FLDOE wishes to withhold any documents or portions of documents, it must (1) cite the exact statute which authorizes the denial of records and (2) provide the basis for asserting an exemption is applicable to a record. *Id.* § 119.07(1)(e).

If requested records are located in another agency, department, office, installation or bureau, please refer this request or any relevant portion of this request to the appropriate entity.

To the extent that the records are readily reproducible in a searchable, electronic format, we would prefer to receive the records in that format. However, if certain records are not available in that format, we are willing to accept the best available copy of each such record.

Please respond to this request in writing within a “reasonable” timeframe. Fla. Stat. § 119.07(1)(a). If all of the requested documents are not available within that time period, we request that you provide us with all requested documents or portions of documents that are available within that time period.

Request for Fee Waiver

Democracy Forward, on behalf of Florida Freedom to Read Project, requests a waiver of document search, review, and duplication fees associated with processing records for this request.

The disclosure of the records sought here will contribute significantly to understanding of an issue of profound public importance. Florida Freedom to Read Project also has a demonstrated ability to disseminate information of public interest requested through Florida’s public records statutes and intends to publicize records received that contribute significantly to the public’s understanding of the FLDOE’s implementation of H.B. 1467 as well as FLDOE’s work related to library material within Florida public schools. Indeed, records received by Florida Freedom to Read Project are often disseminated publicly and have formed the basis of news reports.⁴

If the request for a waiver is denied, we are willing to pay all reasonable fees incurred for searching and duplicating records in responding to this request, up to \$100. If the costs of responding to this request should exceed that amount, please contact us before incurring costs exceeding that amount.

If you deny any or all of this request, please cite each specific exemption you feel justifies the refusal to release the information and notify us of the appeal procedures available to us under the law. We reserve the right to initiate legal proceedings for injunctive or declaratory relief if denied the opportunity to inspect the public records requested. *See* Fla. Stat. § 119.11.
